Relative to independent claim 8, the major difference between the teaching of the prior art of record (Zhang et al. US Patent No. 6,452,592 and Nishino US Patent No. 6,763,926) and the instant invention is that the said prior art **does not teach** for each of a range of test Htotal values, means for calculating a pixel co-ordinate value for each of the found features; means for determining a pixel co-ordinate remainder value associated with each of the pixel coordinate values; and means for determining a maximum gap value of the pixel co-ordinate remainder values associated with a true horizontal resolution.
